

# SILAMIP

## **Our Mission is to;**

To promote careers in healthcare in Latin American students by providing scholarships and Mentorship

To promote the education of the Latin American community on healthcare topics that afflict them via health fairs, public press releases via newspaper, radio and workshops

To promote the continued education of healthcare providers via programs such as Dr. Carlos Finlay multidisciplinary Medical Conference or in partnership with other organizations such as the PA Statewide health summit, the Philadelphia Medical Society and Universities

To provide a sense of community to the healthcare providers through networking events that promote collaboration and friendship through community walks with the American Heart Association; Networking events at the Philadelphia Medical Society, the Holiday Party and the Scholarships Gala

To maintain an open professional relationship with other medical organizations and companies that are interested in the Latino American healthcare at the local, regional, national and international levels. This will promote the access to updated developments in research and medical protocols to better serve the Latino community. It will also give access to resources and collaborative initiatives to promote careers in healthcare, Mentorship and advocacy initiatives.
